you would like to deposit the check into then enter the amount of the check.
- 5. Take a Photo of the Front of the Check**  
Tap "Take photos". Your mobile device's camera will automatically turn on. Place the check on a flat surface, with a dark background and have good lighting. Make sure the four corners of the check fit inside the box and the numbers line up with the guides on your screen. Click on the white circle to capture the front of the check.

If you need to retake the photo, touch "Retake" and try again. If the photo is clear, select "Use".

Before photographing the back, be sure it is endorsed with your signature, write "for mobile deposit only" and the account number for the deposit. Then, you'll need to capture the back of the check, using the same steps you did for the front.
- 8. Verify All Information**  
Review all of the information. If everything is correct, select "Deposit".
- 9. Confirmation Screen**  
On the Confirmation screen you will have the option to deposit another check. You will get an email confirmation when your deposit has been accepted. If the transaction is rejected, you'll receive an email notification.
